

'HIGHER RATE MOBILITY' means worry free motoring

A 'Contract Hire' agreement with Motability means using the Mobility components of your Disability Allowance or the Mobility Supplement of your War Pension. The Contract Hire agreement price can vary depending on the Nissan you choose. Currently there are 30 Nissan models (both manuals and automatics) which are 'NIL INITIAL RENTAL'. An initial rental figure (where there is one) is involved where you choose a car that costs more than the full mobility component can cover over the three year contract (some examples shown below). However some models do not ask for an initial rental or for the whole of your mobility component of your allowance to be used; for example a Micra 1.2 VISIA 3DR will only take £46.15 per week of your allowance.

Contract Hire with Motability includes:

- ~A new car every three years.
- ~Comprehensive insurance cover for three years.
- ~No charge servicing/maintenance.
- ~Three years RAC breakdown cover.
- ~An allowance of 60,000 miles motoring over the three years.

For full details or a test drive please speak to Richard, Lisa or Chris on 01388 746666.
